

# Niro Åhman

Front-end oriented full stack developer with head in the clouds.

**niro@niro.fi** | **+358405306418** | **niro.fi**

## Tech stack

Here is my most recent and common techs I have used. I usually try to keep up with new winds in the **JS** and **serverless** worlds.

In back-end I have done few bits with **Java** and **Scala** in the past but currently deprecating those in favor of **Node.js**.

Front-end frameworks

**React ( MUI, MobX )**

**Svelte**

Back-end frameworks

**SvelteKit**

**Express**

Clouds

**Azure**, most recent.

**AWS**, most knowledge.

## Languages

**Finnish:**

Native

**English:**

Professional competency

**Swedish**

Elementary

**German**

Elementary

## Experience

### Senior Software Developer, Cinia Oy

Aug 2021 - Current

Front-end development mainly with **Typescript** and **React**, building **CI/CD** pipelines ( Azure DevOps, GitLab... ) and running products in different clouds. Projects I have been working on lately have been related to medical sector or other critical areas.

### Software Developer, Cinia Oy

Feb 2018 - Jul 2021

Full-stack development, building **CI/CD** pipelines and putting stuff to cloud in various projects. Stack includes mostly **React**, **Typescript**, **Mobx**, **Java**. Projects have been related to medical sector or other critical areas.

### Junior Software Developer, Cinia Solutions Oy

Jun 2017 - Jan 2018

Back-end development with **Scala** and **Play Framework**, including financial integrations. Development and deployment of microservices in **AWS**.

### Trainee SoC SW, Nokia Oyj

Nov 2016 - May 2017

Developing Linux device drivers for 5G radio heads. **C & C++**

### Thesis worker SoC SW, Nokia Oyj

May 2016 - Oct 2016

Developed new testing frameworks for Linux kernel modules. **C & C++**

## Public projects

### Neuvokasperhe - digital cards, 2019. Cinia Oy

kortti.neuvokasperhe.fi - My responsibilities: **UI/UX** design together with the customer and front-end development. **React**, **Javascript**
